

# Opal- CHIRO PACS + CR

## Go Digital with Opal-CHIRO

Viztek delivers an advanced workstation to seamlessly integrate clinic workflow while encompassing a powerful suite of digital tools. The system boasts a fully integrated patient database and imaging and communication system. Bundle Opal viewing software and server/workstation hardware for the input, display, and storage of images from the modality of your choice. The result is a system that meets your needs and exceeds your expectations, without exhausting your budget.

Now add our new Viztek CR to complete your digital bundle. The easy-to-use tabletop CR can produce 56 plates per hour while producing crisp image quality. Retire your chemical processor and provide your facility with Viztek's premiere CR coupled with Opal-CHIRO PACS software for superior image management.
